High Definition Advanced Sculpting Powders

Our HD ACRYLIC SYSTEM is the most advanced formula out there. Incorporating the flexibility and performance of a homo polymer, while maintaining the adhesion and application of a co-polymer, our signature TIME RELEASE TECHNOLOGY increases working time, strengthens and extends nail performance, maintains the color of the nail with optical brighteners, and says no to yellowing, all in one step.

Bond-It-On Gel Bonder

Product Description:

EzFlow® Bond-It-On is an acid-free bonder that provides superior adhesion to any gel nail enhancement. Recommended for problematic nails to ensure adhesion and long wear. Can be used with any traditional (hard), soak-off or gel polish gel system.

Use with TruGel 100% Gel Polish System for Maximum Results!

Features & Benefits:

- Bonds to natural nail and gel base product for superior adhesion.
- Non-acid formula, accommodating sensitive nail clients.
- Air dry formula.
- Recommended for problematic nails, to ensure long lasting wear.
- Extends the wear of any type of Gel enhancement system.
- Prevents lifting and chipping.

Directions:

Apply a thin coat and let dry before any gel enhancement base coat.
